

Vision. Expertise. Results.

## *Client Solution*

Industry: Manufacturing  
Company Size: 350 Employees  
Estimated Annual Revenue: \$56.8 Million

### Challenges:

- Mid implementation, Second Foundation was called in to help get the implementation back on track from another ERP firm originally hired
- Required reduction in time from order to output
- Needed a solution that could minimize errors on orders
- Disparate systems required duplication in effort and human error caused misinformation
- Needed improved job-cost tracking

### Solution:

- Epicor Vantage
  - Full suite

### Benefit to Client:

- Project concluded on time, and on budget
- Ability to collect actual costs and profit from each individual project
- Better management of cash flow
- Information at fingertips for better and more timely business decisions based on real-time data

### Benefit to Epicor:

- Direct customer for software
