

Dave knows team building...

Dave knows it takes a combination of sophisticated technology/software, creative thinkers and experience to provide integrated and seamless solutions. Second Foundation is built on this principle.

Second Foundation Consulting is a company founded and driven by innovative, proactive thinkers who provide ERP solutions to streamline processes and maximize efficiencies. The end goal is propelling our client's businesses to the next level of success with our value-added solutions.

Our adept team of professionals has a passion for excellence as they create tailored accounting, distribution, professional services and manufacturing solutions. We have fostered a unique environment that is a fusion of creative teamwork, leading-edge software and unparalleled experience.

Since 1994, we have employed only the best and brightest who embrace and embody this philosophy. When adding a team member we value:

- *Teamwork* - work together. Assist others. Share information.
- *Initiative* - be proactive. Make it happen. Innovate.
- *Passion* - be excited about the work you do.
- *Agility* - adapt and respond quickly. Embrace change. Learn new things.
- *Integrity* - communicate openly and honestly.
- *Accountability* - accept responsibility and ownership. Do what you say you're going to do.
