FEATURES

Access Business-Critical Information

Information is easily accessible and can be displayed in a variety of graphs and tables. This graphical presentation makes it possible to interpret large amounts of data and quickly identify business patterns and exceptions. Interactive HTML pages further enhance your ability to quickly analyze how variables will impact your business. Using powerful PivotTables and exceptional data filter capabilities, you can immediately update graphs and tables to actually see the impact as you analyze "what if" scenarios. With a single click, you can further analyze details and obtain the insight you need to make business decisions with confidence. Based on flexible, sophisticated analysis, you can avoid costly mistakes and improve your bottom line.

Improve Response Time

How many hours do you spend finding, organizing, and assembling data into a useful format? Business Insights Professional organizes and charts your information based on key performance indicators, so you can instantly ascertain the state of your business and respond to issues using a format that is easy to read and understand. With this business intelligence tool, you can move from being reactive to proactive—improving response time as well as customer satisfaction.

Beat the Competition

Your organization can benefit from timely and efficient analysis that provides the required business insight to predict future business trends, capitalize on market opportunities, and minimize risk. What's more, improved efficiency can enable you to beat the competition to market!

Rely on Flexible, Powerful Analysis

Key performance indicators provide your decision makers with the business intelligence tools to analyze and monitor the critical areas of your business. These performance indicators include:

- **Financials**
 - Monthly Trends
 - Accounting Status
 - Income Statement Summary
 - Balance Sheet Summary
 - Cash Balances
 - Cash Flow Analysis
- **Receivables**
 - Top Customers
 - Receivables Aging
 - Cash Expectations Analysis
- **Payables**
 - Top Vendors
 - Payables Aging
 - Cash Requirements Analysis
- **Sales**
 - Daily Orders Summary
 - Sales Analysis
- **Inventory**
 - Top Products
 - Top Locations

Knowledge is power! The flexible options and visual formats available in Business Insights Professional will keep you "in the know" regarding the key areas of your business. For organizations with several companies, the accounting status can monitor the progress of each company during period-end and year-end processing. Early detection of issues will enable you to be more proactive and ensure financial information is timely. In addition, analysis of product sales can be critical for identifying trends that impact your purchasing and carrying costs, so you can improve your cash flow and your overall bottom line.

Tracking discounts can also be a great cost-saving measure. The Cash Requirements Analysis performance indicator makes watching discounts easy! Flexible options and powerful PivotTables allow you to hone in on pertinent information based on your check run cycle, branch locations, responsibility keys and more. You decide what information is the most critical to improve productivity and efficiency by identifying high-dollar transactions that require special processing, ensuring you can take advantage of high-dollar discounts.

Employ Multi-Lingual Capabilities

Business Insights Professional is translatable, and supports global organizations that need to display data in other languages. Each company can be displayed in any language that is defined in Sage PFW.

Secure Business Integrity

Security access to each key performance indicator is controlled through Sage PFW security, so you can rest assured knowing your data remains protected and private.
